THROUGH A PHOTOGRAPHER'S EYES

What makes a space stand out? For some it might be the fixtures and fittings, for others it might simply be how the space makes you feel. But what if you've seen hundreds or even thousands of interior spaces? In keeping with our issue theme, we asked six photographers to share a favourite kitchen or bathroom space and tell us what makes it special to them.

CATHY SCHUSLER

SPACE Kitchen by Georgia Cannon

"The most exciting part of my job is seeing different takes on design and how each space is interpreted by its designer. The Church House kitchen with its masculine vibe and industrial aesthetic is definitely a stand out. Strong and swanky like a smoke-filled whiskey bar, it knows what it is and isn't afraid to show it. I love that!"
